ABSTRAK

Sungguhpun Antropologi, psikologi dan Sosiologi telah bermula di peringkat kedua kurun kesembilan belas, namun di Malaysia disiplin-disiplin ini telah diabaikan begitu sahaja hingga ketahun-tahun 1960an. Dewasa itu disiplin-disiplin ini masih terletak di bawah naungan disiplin-disiplin lain dan dengan itu perkembangannya telah menghadapi berbagai-bagai masalah struktur. Akan tetapi, dengan berlakunya pembangunan negara yang pesat, disiplin-disiplin ini telah mula diberi keutamaan di Malaysia, dan bilangan ahli-ahli dalam disiplin-disiplin ini juga turut meningkat. Makalah ini cuba menjelaskan masalah-masalah yang dihadapi oleh disiplin-disiplin ini dan cuba membuat huraian ringkas tentang perkembangan idea yang telah membantu pembentukan aliran kini dalam Antropologi, Saikologi dan psikologi di Malaysia

ABSTRACT

Even though Anthropology, Psychology and Sociology originated in the second half of the 19th century, it was not until the 1960's that these three disciplines began to take root in Malaysia. At that time they were always subordinated to the other disciplines, and as such their development suffered some structural problems. Nevertheless with national development effectively launched, these three disciplines were accorded their rightful place in Malaysia and the number of trained Anthropologists, Psychologists and Sociologists began to increase rapidly. This article attempts to discuss some of the problems encountered by these disciplines and also the development of ideas which helped influence contemporary trends in Anthropology, Psychology and Sociology in Malaysia.
