Banyak perkara-perkara penting mengenai falsafah, pengisian serta praktis atau amalan pengajian umum yang dibincangkan di dalam persidangan tersebut. Perbincangan awal inilah yang membina asas penting kepada pembangunan dan perkembangan pengajian umum di UKM pada tahun-tahun berikutnya. Maka, wajarlah karya-karya awal yang mendasari perkembangan masa kini didokumenkan semula bagi rujukan pada masa akan datang.

ABSTRACT

In this issue, MALIM republished several selected articles from the publication of the Centre for General Studies in 1998, titled 'General Studies: The Education of Man' which was edited by Abdul Kadir Hj. Din and Mus Chairil Samani. 'General Studies: The Education of Man' is the first international conference proceeding on General Studies organized by the Centre for General Studies, UKM in 1998. A number of important matters regarding philosophy, subjects, and practices of general studies were discussed at the conference. This early discussion has established a fundamental importance in the development and advancement of general studies in UKM for the subsequent years. Therefore, it is necessary that early works underlying the present development are re-documented for future reference.
